commons hub

An experimental playground for regenerative systems design

In a Nutshell

The **commons hub** is a communal co-working and events venue
in the Austrian Alps that acts as a shelling point for
technical, economic, social and natural systems innovations.

Its intimate atmosphere, egalitarian principles
and stunning natural surroundings
foster deep and lasting connections among peers.

Our Vision

As an **experimental playground for regenerative systems design**,
the **commons hub** explores the liberatory potential of emerging technologies
and social techniques that facilitate horizontal communities.

Our aim is to develop a testing ground for the commons
that puts these innovations to work,
building a regenerative future in the here-and-now.

"The Commons Hub is a beautiful physical space which engenders equally beautiful social and intellectual spaces."

Dr Michael Zargham, BlockScience (CEO)

A Place to Gather, Create & Connect

The Hub's **intimate atmosphere** and the **stunning nature** surrounding it
make it an inspiring place to work, unwind, and relax with friends.

Our event space accommodates **up to 100 guests** in the main conference hall.
Cozy side spots are ideal for smaller group discussions or breakout sessions.

Whether you need a place to stay, a venue for your event, or support in planning it –
our space and experience will help you **foster connection, collaboration, and creativity**.
